

DIVERSIDENT™

MSDS for Avalanche™ Professional In-Office Whitening	Avalanche™ Gingival Gel	Avalanche™ Photoactive Booster	Avalanche™ Hydrogen Peroxide
Distribute by	DIVERSIDENT LLC 2305 ROWLAND AVENUE SUITE 206 THUNDERBOLT, GA 31404 T: (888) 922-0188 F: (912) 629-9452	DIVERSIDENT LLC 2305 ROWLAND AVENUE SUITE 206 THUNDERBOLT, GA 31404 T: (888) 922-0188 F: (912) 629-9452	DIVERSIDENT LLC 2305 ROWLAND AVENUE SUITE 206 THUNDERBOLT, GA 31404 T: (888) 922-0188 F: (912) 629-9452
Hazards Identification	Not hazardous. Extensive exposure may cause irritation.	Not controlled	Severe irritation to eyes and skin
First-aid Measures	Inhalation: Provide fresh air and rest. Skin Contact: Wash with soap and water. Eye Contact: Flush with running water for at least 15 minutes while keeping the eye lids open; seek medical attention. Ingestion: Wash out mouth with water provided person is conscious. Seek medical advice.	Flush eyes with plenty of water for at least 15 minutes. Flush skin with plenty of water. Remove to fresh air. Do not induce vomiting. Give plenty of water to dilute. Call a physician.	<i>Inhalation</i> - Remove to fresh air - Oxygen or artificial respiration if needed - Keep warm - Victim to lie down in the recovery position. - Call a physician immediately <i>Eye contact</i> - Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes - In the case of difficulty of opening the lids, administer an analgesic eye wash- oxybuprocaine - Consult with an ophthalmologist immediately in all cases <i>Skin contact</i> - Take off contaminated clothing and shoes immediately - Remove contaminated clothing - Wash off immediately with plenty of water - Keep warm - Call a physician <i>Ingestion</i> - Call a physician immediately - Take victim immediately to hospital <i>If victim is conscious:</i> - If swallowed, rinse mouth with water (only if the person is conscious)

			<ul style="list-style-type: none"> - Do NOT induce vomiting <i>If victim is unconscious but breathing:</i> - Artificial respiration and/or oxygen may be necessary - Never give anything by mouth to an unconscious person
Fire-fighting Measures	<p>Fire-fighting media: Water spray, dry chemical powder, foam or carbon dioxide.</p> <p>Fire and explosion risks: Emits hazardous fumes under fire conditions.</p>	<p>Not flammable.</p> <p>Small fires: CO₂, powder or water spray.</p> <p>Large fires: With water spray or apply alcohol resistant foam. Evacuate enclosed and surrounding areas. If fumes and smoke can not be avoided, use adequate suit and breathing apparatus MSHA/NIOSH or an equivalent.</p>	<p>Suitable extinguishing media is Water or Water spray. Special exposure hazards in a fire - Oxidizing agent, Oxygen released in thermal decomposition may support combustion, Contact with combustible material may cause fire, Contact with flammables may cause fire or explosions, Risk of explosion if heated under confinement</p>
Accidental Release Measures	<p>Personal Precautions: Wash thoroughly after handling. Use protective gloves and chemical safety goggles.</p> <p>Environmental Precautions: Avoid ground water contamination.</p> <p>Methods for Cleaning Up: Wipe with damp paper towel. Discard properly.</p>	<p>Wear adequate personal protective clothing and equipment. Pick up mechanically or use a vacuum cleaner.</p>	<p>Personal precautions</p> <p>Isolate the area, Keep away from incompatible products, Prevent further leakage or spillage if safe to do so, In case of contact with combustible material, keep material wet with plenty of water</p>
Handling and Storage	<p>Store in ventilated cool dark dry place (<22 °C). Exposure to day or blue light will cause polymerization.</p>	<p>No special measures required.</p> <p>Dry and fresh location with good ventilation No special measures required</p>	<p>Wear rubber gloves and safety glasses. Store in a cool place. For small quantity spills, used in dental practices, wipe off with tissue.</p>
Exposure Controls / Personal Protection	<p>Eye Protection: Use protective eyewear.</p> <p>Hand Protection: Use protective gloves.</p> <p>Respiratory Protection: Avoid prolonged breathing of vapors of uncured material.</p> <p>Skin Protection: Use any necessary hygiene measures</p>	<p>The usual precautionary measures are to be adhered to when handling chemicals.</p>	<p>Wear chemical resistant gloves, safety goggles or face shield and follow general good practice.</p>
Physical / Chemical Properties	<p>Appearance: viscous solution; Color: green</p> <p>Miscibility: N/A; Density: 1,12g/ml</p>	<p>Solid, Odorless Pink powder Insoluble, Miscibility with organic solvents</p>	<p>pH:4.5</p> <p>Boiling point/range:108 °C (226 °F) - 115 °C (239 °F);Flash point: The product is not flammable</p>

	Odor slight odor Vapor Density N/A Viscosity (sp7, 50rpm, 1min) 40.000-65.000		Explosive properties: With certain materials In case of heating; Oxidizing properties, Vapor pressure: 1 mbar; Relative density / Density: 1.1 (H2O2 27.5 %)-1.2 (H2O2 50 %) Viscosity:1.07 mPa.s Vapor density: 1 (H2O2 50 %)
Stability and Reactivity	Keep in dark places! Exposure to day or blue light will cause polymerization. Avoid high temperatures	Stable Under normal conditions	<i>Stability</i> - Potential for exothermic hazard - Stable under recommended storage conditions with slow gas release <i>Conditions to avoid</i> - Contamination - To avoid thermal decomposition, do not overheat <i>Materials to avoid</i> - Acids - Bases - Metals - Salts of metals - Reducing agents - Organic materials - Flammable materials
Toxicological Information	Eye Contact: May cause eye irritation. Skin Contact: May cause skin irritation. Skin Absorption: May be harmful if absorbed through skin. Inhalation: Material may be irritating to mucous membranes and upper respiratory track. May be harmful if inhaled. Ingestion: May be harmful if swallowed. Other: N/A	It can be harmful if swallowed	<i>Acute oral toxicity</i> - LD50, rat, 1,232 mg/kg (H2O2 35 %) <i>Acute inhalation toxicity</i> - LD50, 4 h, rat, 2.000 mg/m3 (Hydrogen peroxide) <i>Acute dermal irritation</i> - LD50, rabbit, > 2.000 mg/kg (H2O2 35 %) <i>Skin irritation</i> - Rabbit, No skin irritation (H2O2 10%) <i>Eye irritation</i> - Risk of serious damage to eyes (H2O2 35 %) <i>Irritation (other route)</i> - Inhalation, mouse, Irritating to respiratory system, RD 50 = 665 mg/m3 (Hydrogen peroxide)
Ecological Information	N/A	N/A	For small quantities, used in dental practice, not applicable
Disposal Considerations	Refer to any Community provisions relating to waste. In their absence,	Dispose of in an approved landfill in accordance with federal, state/ provincial	Small quantities, wash down the sink

	refer to National or Regional provisions relating to waste.	and local regulations. Since emptied container retains product residue, all labelled hazard precautions must be observed.	
Transport Information	Not hazardous for road, sea and air transport.	Not controlled	DOT: UN2014 5.1 (8) Hydrogen Peroxide, aqueous solution II Oxidizer (5.1) [Corrosive (8)] Oxidizer (5.1) [Corrosive (8)] ERG 140
Regulatory Information	Classification: Not Harmful. Safety: Refer to any applicable National laws. Skin Absorption: May be harmful if absorbed through skin. Inhalation: Material may be irritating to mucous membranes and upper respiratory track. May be harmful if inhaled. Ingestion: May be harmful if swallowed. Other: N/A	Not controlled	Only for large quantities above 100lbs Regulated by TSCA, SARA, CERCLA, OSHA

To our actual knowledge, the information contained herein is accurate as of the date of this document. However, neither Diversident, nor any of its affiliates makes any warranty, express or implied, or accepts any liability in connection with this information or its use. This information is for use by technically skilled persons at their own discretion and risk and does not relate to the use of this product in combination with any other substance or any other process.
